

# WADEBRIDGE DENTAL CARE

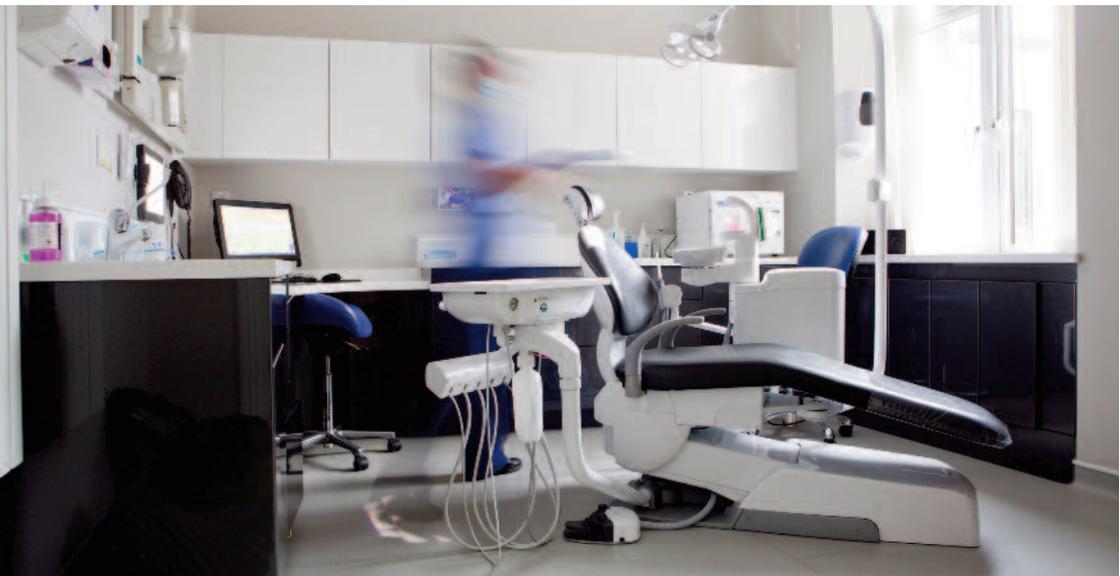

ESTABLISHED OVER 35 YEARS AGO

A WARM WELCOME AWAITS YOU

# WELCOME TO OUR PRACTICE

**Welcome to our family run and well established dental practice, situated close to the heart of Wadebridge centre. Patient care is at the heart of everything we do. We have a fantastic team offering a wide variety of NHS and private treatment to patients in a warm, friendly environment.**

**We hope this brochure gives you an insight into what we offer our patients and useful information about our practice.**

## WHY CHOOSE US?

- We are a long established family run dental practice with thousands of satisfied patients.
- We accept NEW private patients.
- Our team of dentists are highly skilled to deliver the most up-to-date dental treatments.
- We will listen to all your dental needs and fully explain the options available to you.
- We have all the latest cosmetic options available.
- We are experts in treating even the most anxious of patients.

# COSMETIC OPTIONS

At Wadebridge Dental Care our primary concern is the health of your teeth and gums, but we can also help you achieve the smile you have always wanted with our range of cosmetic treatments.

## DENTURES

We offer a range of private dentures to replace old, worn or ill-fitting dentures to improve the function and your smile. The range includes flexible dentures and smaller metal dentures in addition to the traditional acrylic type.

## TOOTH WHITENING

Our teeth whitening treatments can help you achieve an amazing white smile. We use Enlighten's Evolution professional teeth whitening treatment which is the only system in the world that will whiten up to 16 shades easily and safely and will give you a dramatic look. Alternatively, we offer Opalescence tray whitening system which also gives great results.

## CROWNS AND BRIDGES

We can cover unsightly teeth with crowns and spaces between teeth can be filled using bridges. Advances in technology allow these teeth to appear more natural and black lines around the gum margins are less likely to occur. It is a cost effective way to replace teeth compared to implants.

## SIX MONTHS SMILES

Our dentists are qualified in providing Six Month Smiles to straighten teeth. Six Month Smiles can be used on teeth which are crooked, twisted or even gapped. Tooth coloured wires and brackets are used, making it a popular option for adults who may not want to wear a traditional 'train track' metal fixed brace.

## FAST BRACES

A fully comprehensive orthodontic system to straighten teeth safely in the shortest possible time using clear or metal braces. This often takes less than half the time of traditional braces.

## INMAN ALIGNER

Another option we offer to straighten teeth are Inman Aligners. The Inman Aligner is a clear plastic retainer with two spring loaded aligning bars that fit easily over the front four teeth. Unlike a regular brace, the Inman Aligner provides a constant gentle pressure on the teeth, easing them back into place far more quickly. This revolutionary concept can transform teeth in a matter of weeks.

## VENEERS

Veneers provide a very thin covering to hide discolouration on teeth and close unsightly gaps, often with little work needed to the tooth itself.

## STAIN REMOVAL

Aquacare is a very effective, comfortable and quick cleaning procedure. A fine stream of fluid combined with a tiny volume of powder is directed at the teeth to remove stains such as food, tea, coffee, wine and tobacco. It is a non-invasive and painless procedure leading to a cleaner brighter smile.

## NATURAL TOOTH COLOURED FILLINGS

Unsightly metal fillings can be replaced by tooth coloured fillings to improve the look of your teeth and smile.

# HYGIENE SERVICES

Our Dental Hygienist, Hilary Pugh-Jones is a specially trained member of the team who has a very important role in your oral health. She believes that it is important to educate patients on their oral health status and will always find the time to discuss and create personal oral health regimes that work for her patients.

## DID YOU KNOW?

Private appointments with the hygienist can now be booked without having to see a dentist first?

## WHAT OUR PATIENTS SAY...

“Very pleased with all my treatment over the last 20 years, especially Andrew Taylor”

Alex Robins

“Amazing care and attention from Dr McCrory. He is brilliant at explaining and reassuring. The kids love him!”

Jo Pope

“Brian (wonderful dentist) saw my little girl today, was very good. Thank you!!”

Joanne

“Hilary was brilliant she made me feel at ease. I was very nervous as have had a bad experience so much better this time.”

Lisa

Opalescence®
