Before

Discoloured tooth restored with resin after periodontal surgery by Dr Jason Smithson

**“ This is not just Dentistry,
this is Artistry”**

Dental Implants

**Dr Andrew Taylor - Special Interest in Dental Implants
BDS Wales 2005, Diploma in Restorative Dentistry (Distinction)
GDC no 85277**

Andrew is the Principal Dentist of Wadebridge Dental. In his 20 years as a dentist Andrew has developed a keen interest in Cosmetic, Restorative and Advanced Dentistry including Dental Implants, Teeth Straightening (Invisalign, Six month smiles, Fastbraces) and Crown and Bridgework.

Andrew completed a Diploma in Restorative Dentistry in January 2020 and achieved a Distinction. He has also completed advanced training in Dental Implants at the International Team for Implantology, and received a certificate in bone and tissue regeneration and sinus grafting.

Andrew is a recognised Dental Implant mentor with ADI

Andrews training allows him to place complex Implants with precision and predictable results, and he has over a 97% proven success rate (which is continually audited), with his dental implants

Straumann are one of the world leading implant providers and the brand Andrew chooses to use at the practice.

Andrew fully embraces digital dentistry to provide the best care and outcomes for all his patients.

**We offer a 3 year guarantee on all our implants and
only use the worlds leading implant system, Straumann**

Dr Andrew Taylor can offer your patients a consultation for:

- Dental Implants
- Implant Retained Dentures
- Implant Retained Bridges
- Mini Implants

Before dental implant

After dental implant

Before dental implant

After dental implant

Sedation

Dr Katie Golenia - Special Interest in Sedation BDS Bristol 2015 GDC No 258267

Dr Katie Golenia has a keen interest in treating anxious patients and has completed her conscious sedation training with SAAD to offer IV Sedation at Wadebridge dental. Katie is the only female dentist in the south west of England registered on the Dental Phobia website.

"I joined Wadebridge Dental Care in 2017 and am proud to be part of such a friendly and committed team"

We can offer your patients a Free Consultation with Dr Golenia with little or no waiting time

"Electing for sedation to remove a tooth (and avoid my tendency to gag) was a good decision. The treatment, communication and professionalism could not be bettered. Many thanks to the Sedation Team"

Mr Gary Wilcox

Endodontics

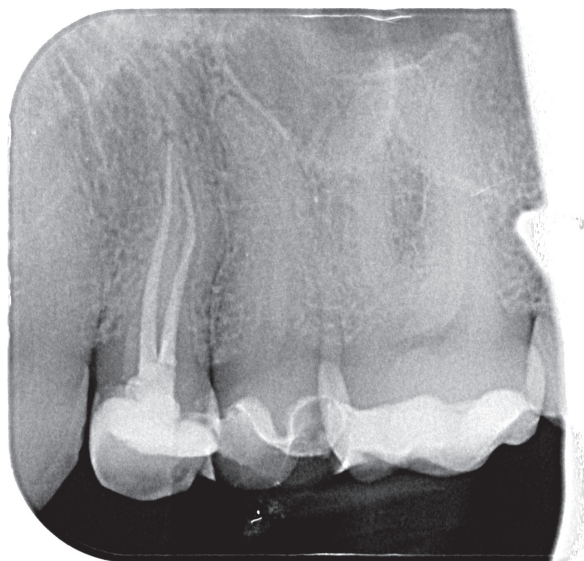

Damien McNee - Special Interest in Endodontics
BDS Sheff 2007, MSc (Dental Implants) Pg Cert. (Law&Ethics)
Pg Cert. (Restorative Dentistry) GDC No. 114382

Dr Damien McNee enjoys providing endodontic treatments at Wadebridge Dental and prides himself on his thorough and pain-free approach to managing these cases. Damien is currently undertaking a PG Cert in Endodontics at the University of Chester.

If you have a patient that you feel would benefit from a more advanced endodontic treatment Damien will see your patient for an initial consultation to discuss options

Following endodontic treatment Damien will refer the patient back to you for any long-term restoration and continued care or if you would prefer Damien or Jason Smithson to provide a long term crown/onlay please provide instruction on referral and we will be happy to do so.

Oral Surgery

Dr Pamela Ray - Special Interest in Oral Surgery
BDS Lond 1991, Pg Dip (Bristol), MSc Oral Surgery (Distinction),
Pg Cert Dent Ed GDC number 67378

Dr Pam Ray was awarded a Diploma in Postgraduate Dental Studies by the University of Bristol in 2016. During her studies there she was presented with the Laurence Oldham prize for outstanding achievement in Oral Surgery and the MarshMidda Memorial prize in Periodontology.

Pam joined Wadebridge Dental in 2019 and was awarded a Masters Degree in Oral Surgery with Distinction by the University of Plymouth.

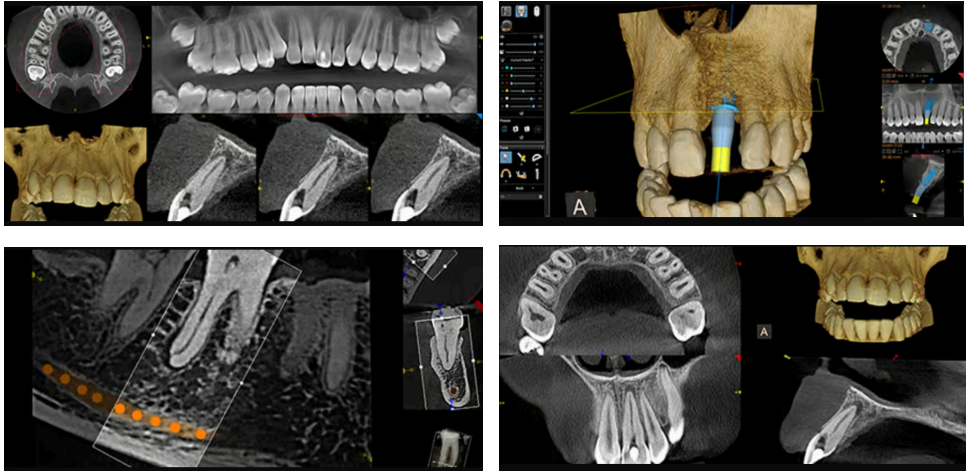

Wadebridge Dental are pleased to be able to offer prompt appointments, on a private basis, for patients requiring complex or surgical dental extractions.

We can see patients needing:

- Surgical removal of teeth, including retained roots
- Extraction of upper teeth where there is an increased risk of oro-antral communication
- Extraction of upper and lower third molars

CBCT 3D Scanner & OPG

We accept referrals for both OPGs and CBCTs and will contact the patient within 24 hours to arrange a suitable appointment

Uses include

- Dental Implant Planning and Placement
- Oral Surgery
- Complex Endodontic cases
- Orthodontic Treatment
- Periodontal disease
- TMJ diagnosis and evaluation
- Diagnosis and detection of Tumours and Infections

We accept referrals from other practices and will return your patient with their scan promptly

Orthodontics

Dr Kate Rowe and Dr Andrew Taylor, are both Diamond Invisalign® providers, and very experienced fixed braces providers, able to treat the most complex of orthodontic cases.

Dr Philippa McNee and Dr Kate Rowe have both completed clear Aligner diplomas and Dr Zoe Rogers has undergone advanced training.

Dr Katy-Ann Rowe regularly provides orthodontics to children, enabling them to be seen and treated much quicker than with traditional NHS orthodontics.

Dr Andrew Taylor

Dr Kate Rowe

Dr Philippa McNee

Dr Zoe Rogers

Before

After

We are able to offer Free Consultations for Children, Teenagers and Adults for both fixed braces (Six Month Smiles and Fastbraces) and Invisalign Clear Aligners.

As Cornwall's only Diamond Invisalign provider with extensive experience over the past 10 years providing both fixed braces and clear aligners on a private basis, our team of experienced dentists can treat the most complex of cases

We can use a combination of TADs (Temporary anchorage devices) with orthodontic treatment to speed up treatment, help complex movements and corrections by providing anchorage

Please state in your referral if you are referring for Invisalign or fixed braces
